

2008 Malakoff Parade Visit to the Bartlett House in Malakoff

by Joe Creecy

After the parade Saturday we went to the opening of the Bartlett House in Malakoff. Construction was started in late 1927 and finished in 1930. The house has nearly 4,000 square feet, 11 rooms and a full basement. The house and it's gardens were a show place in it's day, now in very bad shape, is a project of the Greater Malakoff Area Garden Club.
