

Wednesday Tuesday Breakfast and Tech Session

This month we moved the Wednesday Breakfast to Tuesday to accommodate certain club members who claim they work on Wednesdays. We met at the Kitchen Table in Eustace and, after good food and fellowship, the guys (plus Jodi and Sandra since they didn't have her own wheels!) went over to Yankee's for a carburetor overhaul tech session. Turned out we also got his big compressor running again: a new start capacitor and removing a large mud dauber nest from inside the motor!
