PRESIDENT'S MESSAGE

We have had a couple of fun events this month. The Tractor Show and Swap Meet in Canton was attended by six Model A's plus Chuck's neat Model T. The number of tractors present of all vintages made for some great viewing. The ladies enjoyed the shopping too!

We timed the Tyler Azalea Trail perfectly. The blooms were fantastic. Six Model A's made the trip that is described elsewhere in the newsletter.

Coming events include the Founders Day parade in Emory on May 1, the 2nd annual Ladies Appreciation Day BBQ at the Wittners on May 15 and the Polka Festival and Parade in Ennis on May 29. We would enjoy

having more of you join us at these coming events.

The next meeting is on Tuesday May 4 at 5:30 PM. I have asked John Shore to give a short talk on fuels and fuel additives that can positively affect your modern car and your Model A or T. As you may know, John deals with engines every day in his business. He got on his soapbox about fuels in the car on the way to College Station to pick up Walt's engine. I learned a lot about fuels on that trip that I think would be of value to you as well.

Hope to see you on May 4,

Bill

Sunshine Report - Sue Capps

"I have not heard anything.....from anybody.....not able to call everyone. I hope that truly means all is well."

No news is good news?

Bill Lee had an interesting week in Europe, trapped in Geneva at the end of a trip to Lausanne, Switzerland, by the volcanic ash cloud that closed all of the European airports. An **expensive** 5 days touring the sites and killing time. But home now and recuperating from jet-lag.

Thought Provoking Statements:

I think part of a best friend's job should be to immediately clear your computer history if you die.

I totally take back all those times I didn't want to nap when I was younger.

I keep some people's phone numbers in my phone just so I know not to answer when they call.

Tyler Azalea Trail – April 13, 2010

Six Model A's with twelve club members left Eustace square on Tuesday morning to go to Tyler and see the azaleas that were supposedly in their peak of bloom. We traveled the backroads through Edom to Tyler. Bill Wittner (with Nancy navigating) led the group through the trail tour. The flowers were stunning. We stopped twice to go through yards that were full of blooms.

On the second stop, we met a photographer who was doing work for the *Texas Highways* magazine. He directed the lineup of our cars and us in front of some beautiful azalea bushes and took several photos. He indicated that a picture might make a fall issue of the magazine. A copy of one of his photos is included in this report.

We then went to Ben Wheeler for lunch at Moore's Store. Serious hamburgers!! Met Brooks Gremmels, the developer of "new" Ben Wheeler. After lunch, we followed Brooks to his house to view his collection of vehicles; antique cars, modern cars, motorcycles of various vintages, tractors and more. This was a real topper for a great day.
