

## **Sam Pack Museum Visit**

The Dallas Model A Club invited the Cedar Creek club to join them for a special viewing of the wonderful, private collection of vehicles owned by Sam Pack, an auto dealer in the Lewisville and Carrollton area. On June 13, about ten members met for breakfast at the Chuck Wagon in Mabank before leaving for Lewisville. As we entered the door of a very inauspicious building, a sea of beautiful autos greeted our eyes. Vehicles ranged from about 1929 classics through some recent Shelby Cobras. All styles were represented; classic, post-war, 60's muscle, customized rods as well as factory racing and performance cars.

In this one building were more than one hundred perfectly restored vehicles. We were told that there is another building that contains approximately an additional 100 cars that are either being restored or are being stored to wait their turn at being viewed in the main building.

It appears that an additional invitation will be extended sometime this fall to see these additional cars. If so, those who did not make this trip will have another opportunity to see a superb collection of vehicles that is normally not open to the public.
