MODEL A NEWS

Ola Powell 903-451-5934

Bill Capps 903-451-9651

**next meeting: TUESDAY, August 5 at the
GBC Dairy Queen Get the dust off the Model A,
get it out of the garage and come on down. Bring a friend...**

Well.... we survived the fourth of July weekend. We hosted the Capps family reunion this year at the lake. Had a total of 58 folks most days and for three meals each day from Thursday until noon Sunday. Several stayed over until noon Monday. Bill and I did nothing the week following except sleep, sleep and sleep. Why do folks always think they have to stay up until 1:00 AM and get up at 6:00 AM. So they won't miss anything???? I sure hope you all had a great holiday too. Probably on a lot smaller scale and much calmer!!!

Come and get it and you did!!! Banana Nut---Peach----- Vanilla ice creams..... Cake--- cookies--- pie Boy, didn't we have a great ice cream social at the Capps Sunday, July 13. We did have a good turn out for this first social event. I hope you were able to taste of everything...it was all so good!!!! Know how I KNOW...I tasted it all! Need a good recipe for vanilla homemade ice cream????? Ask Ola!! He did a great job for his first time! We will definitely have to do that again! If you were not able to join us...I have your ice cream in my freezer....well..maybe not now! Sorry....but, we did think of you as we ate your share and did enjoy it. Missed you!!

Paul Pirtle of Athens joined our club at the last meeting. His friend, Linda, came with him to the meeting and ice cream social.. Paul does not own a Model A yet...but may be in the market for one. Be sure to check with him. You may have just what he would like to purchase.

Friday, July 18, 3 Model A's and several club members met at Sue's Roost in Eustace to eat breakfast and take a driving tour to the Canton area to visit with the Hatfields. We were safe...no sign of the McCoys!!!! What a great restoration production business Gary Hatfield has. Many employees, all specializing in certain areas, such as upholstery, air

conditioning, engines, fiberglass, painting, etc. And all so willing to take the time to show us all around and explain so many details of their expertise. We thoroughly enjoyed seeing all the types of autos they work on. Many different types of cars in various stages of completion. He said it was not uncommon for some people to put as much as \$100,000 into complete car restorations. We had a wonderful tour of all the shops.

PARADE TIME!!!!!!

There will be a parade in Seven Points on Saturday, August 9th at 10:00 am. Staging to begin around 9:00 am. The first parade ever for Seven Points and we have been invited to participate in it. Several cars are needed to escort some local dignitaries as well as one or two state representatives, etc. Would you like to join us? Think about it and please let us know at the August 5 meeting. Signs will be made up to attach to the cars to identify the riders. No tape, etc. to harm the paint or cars in any way. Would you be willing to take on a rider? We need to know as soon as possible to notify the parade organizing committee. It will be early and we should not be in the real heat of the day! Won't take too long either to get from Seven Points city hall to Linder's Hardware!

If you have an idea for an outing or driving tour for August, please bring your ideas to the meeting August 5. Think something COOL as in air-conditioned restaurant etc.

Also, we have a suggestion to change meeting places from time to time. What do YOU think? Would you like for us to meet at your house or shop or some place more exciting? Any ideas???? Tell us at the next meeting.
